Miniature polar world in a suitcase

Instructions No. 2337

Difficulty: Advanced

Working time: 6 Hours

Now that's an eye-catcher: a whole **winter landscape** built up **in a suitcase**! Astonished looks are guaranteed. A great decoration for the winter season. Arrange the suitcase with the **polar world** with cotton wool and transparent stones as ice and you have a perfect decoration for the windowsill or chest of drawers.

This is how the winter world is created:

Paint the outside of the **suitcase** with **craft paint** in blue-green and the inside in turquoise blue.

Cut the **polystyrene plate** with a cutter to the size of the lid and then glue it inside. Now cut the **desired papers** to the size of the styrofoam plate and the "back wall" and stick them on with double-sided adhesive tape.

Use hot glue to stick the **fairy lights** to the edge of the lid and the back wall.

Cut **icebergs** from the polystyrene sheet and stick them on with hot glue. Cover them with **decorative snow**. Cut out the animals from the paper and fix them in the snow.

Now glue on the scatter pieces and decorate with other paper motifs if required. Use a marker to write a text on the **Christmas ball**. Glue the ball into the winter landscape with hot glue.
