Instructions: Sound chimes made from terracotta pots

Instructions No. 1224

Difficulty: Beginner

Working time: 1 hour

Terracotta pots can be tinkered with a few simple steps to a colorful sound play, as a fresh decoration for your garden.

And it's that easy:

How do I paint the terracotta pots?
First you prime the terracotta pots in the desired colour. After the primer has dried well, transfer the Painting templates to the terracotta pots using transfer paper and a pencil.
Then paint the motifs in your favourite colours.

How do I make a sound play from the painted terracotta pots?
First cut five approx. 20 cm long Cords In the next step, take the Cords double and attach a little bell at both ends of each Cord . In this way you get a ball with all bells on the same length.
Now cut off another Cord , take it twice and knot all Cords together in the middle. At the end you get a Wooden ball.
Next, you determine the length of your sound game and cut two Cords of the same length. Now you always place an account, place a Wooden ball over it and thus determine where the individual terracotta pots will hang in the sound game.
Now you have to hang up the soundgame only and that's it!

Must Have

Terracotta pots, Inside-Ø 4 cm, 10 pcs.

Content: 10 pieces
Diameter (outside): 4.7 cm
Height: 4 cm
Material: Terracotta
