Instructions: The colorful Easter trio

Instructions No. 1387

Difficulty: Beginner

Working time: 15 Minutes

Create your own colourful **Easter chicks and** enjoy a lot of fun doing handicrafts **, even** with **children!** The crafting is quick and easy, the finished Easter decoration brings colour and good mood into the home.

Here's how it's done

Wool Body

First glue 4 to 5 strips of double-sided Adhesive tape lengthwise onto the Polystyrene-egg. The wool will stick to this Adhesive tape .

The next step is to wrap the wool tightly around the egg. This is especially even if you start winding in the middle of the Ice Make sure that you have enough wool thread for both windings.

First wind the wool up to the bottom of the Ice and fix the end of the thread as a loop with a drop of Handicraft glue or hot glue additionally. Then wrap the upper part of the Polystyrene-Ice just as evenly, with the end at the head of

the Ice.

Legs and feet
Cut a piece of aluminium wire about 13 cm long for each chick leg. Glue the wire into the wooden feet, slide a Wooden ball on each wire and glue it. Now the legs can be put approx. 3 cm into the Polystyrene-egg and turned into shape. Wrap some wool around the legs - this way you get cute little gauntlets.

Wings, comb and face
With the help of the motif template, simply cut out the comb, wing and nose from Felt and finally glue on all the felt parts together with the Wobbly eyes - done.
