Anleitung: Aus Perlen ein wunderschönes Fensterbild

Instructions No. 561

Difficulty: Beginner

Working time: 15 Minutes

The **pearl butterfly** is a great idea for **Crafting with children**. The beads are simply drawn on wire and make a beautiful bead figure, which will look especially good in the window.

And so it goes

Alternate in each case 11 **Acrylic beads**thread t onto a long piece of wire. Twist the ends together. Bend the shape for the butterfly according to the drawing. For the body, thread facet balls **on a** piece of wire about 12 cm long, insert like a center bar and bend the ends of the wire around the passing wire.

Bend the sensors from a piece of wire about 20 cm long. For this purpose thread Pearl one on both ends of the wire. Secure with an eyelet and screw in a little bit. Then wrap the wire around the middle of the top of the bar.

For hanging up the beads, tie a thin knot and attach Satin ribbon some satin ribbons of different lengths to the bottom end.

Thread the facetted forms onto the satin ribbon ends and fix them with hot glue.

Tie 2 small bows of 6mm Satin ribbon and fix them with hot glue on the top and bottom of the bar.
