Anleitung: Häuser-Anhänger in frischen Farben

Instructions No. 1136

The VBS Pendant set house is suitable for many different decorations and creative ideas. The 24 houses can be used for example as Advent Calendar . The roof is easy to remove and so small items can be stored inside. But the trailers also offer many possibilities for springtime, for example as garden decoration or for a fairy lights. In this manual you will get some simple tricks to design the houses with paint, Napkin and scattering parts

And it's that easy:

For a spring-like appearance the house fronts are primed white. The other sides of the houses will be given a beige primer and the roofs will be painted in different colours. The paint is applied several times to give the roofs a particularly intense glow. Let the paint dry well.

Choose springlike motives from a Napkin and cut them out. The uppermost paper layer of Napkin with Napkin varnish on the houses stick on. Paint with the napkin brush from inside to outside. Then leave the houses dry

In the meantime, the roofs can be given a shabby effect: on a damp sponge some beige-brown colour is given and

wiped onto the roofs as a contrast to the colourful primer. Then the edges of the roof are dyed brown.
To make the shabby look perfect, the edges of the houses are also emphasized with brown Acrylic paint .

As soon as the paint has dried, you can stick suitable Embellishment like chicks, owls or birds on the houses.
