

Anleitung: Schmetterlingshaus mit Serviettentechnik und 3D Effekt dekorieren

Instructions No. 1099

This motley butterfly house brings fresh colour to your garden. Decorated with a Napkin and bright color it will certainly not only the butterflies like. How you attach besides the put on butterflies to the house we betray to you in this free tinkering idea.

How do I decorate the butterfly house?

Prime the front of the butterfly house and a piece of aluminium sheet with white outdoor-Acrylic paint. When the paint is dry, glue the top layer of Napkin flat with Napkin varnish on the front of the house. When the surface has dried again, cut the slits free and cut off the excess of Napkin .

How do I create 3D butterflies?

Glue the butterfly motifs from Napkin onto the primed aluminium sheet with Napkin varnish . After drying, emboss the motifs with a pressing tool.

Pink puts you in a good mood

Paint the sides of the house and the inside of the entry slits with pink outdoor paint. Now accentuate the edges with the Ink Pads and smudge everything slightly. Finally, only bend the wings of the aluminium butterflies slightly and attach them to the butterfly house with hot glue at the desired position.

Tip: If you treat the edges with a Ink Pads , this has the

advantage that the cushion only does not release much colour. This gives you a light vintage look.
