Autumn table decorations

Instructions No. 3116

Difficulty: Beginner

Working time: 3 Hours

Autumn is just around the corner and with it the perfect time to transform your home into a cozy autumn landscape. With a house wood building kit or building kit you can let your creativity run wild and create a beautiful fall decoration that will enhance any room. These detailed instructions will guide you through the entire crafting process so that you can create individual fall houses in no time at all. Let yourself be inspired and find out how you can create something really special with simple tools and a little imagination.

For our idea, we used the VBS wood building kit Autumn house. You are welcome to use these instructions as the basis for your own personal miniature house.

Step-by-step instructions for your fall house

1. Paint the wooden parts
First you should paint the individual parts of the VBS Wooden building kit autumn house according to your ideas. Use acrylic paints in autumnal shades such as orange, red, brown, green and yellow. Remember to paint the edges and less visible areas as well to achieve a perfect all-round result.

2. Assembly and gluing
Once the paint is completely dry, it's time to assemble. Assemble the individual parts according to the instructions and secure them with handicraft glue. If you want to decorate the roof with moss , it is advisable to first prime it with moss green paint.

3. Decorate with moss
For a particularly lifelike look, you can decorate the roofs with moss . To do this, apply some handicraft glue or alternatively hot glue to the roof surfaces and press the moss firmly into place. Make sure that you distribute the moss evenly to create a harmonious overall look on the roof.

4. Decorate the mushrooms
Now it's the mushrooms' turn. To create beautiful dots on the mushrooms, you can use the ends of a bamboo skewer. Dip the skewer into the white paint and carefully dab the dots onto the mushroom caps. Use the thinner end of the skewer for smaller dots and the thicker end for larger ones.

5. Design the base
Glue two slices of bark on top of each other, staggered, to create a stable base for your autumn house. Then place the wooden kits on this base and fix them in place with handicraft glue or hot glue.

6. Final decoration
Now you can decorate the fall arrangement. Glue moss and mushrooms around the houses. This will give you an idyllic autumn landscape. Distribute the decoration so that it creates a balanced overall picture and all the elements are shown to their best advantage.

Your autumnal masterpiece is ready! Now it's up to you to embellish your home with your beautiful autumn house. You can find all the materials you need in our online store.
