Christmas signpost sign

Instructions No. 2880

Difficulty: Beginner

Working time: 3 Hours

Are you still looking for a great **Christmas decoration**? Our **signpost**, which can be labelled as you like or with our template, designed with colours and embellished with scatter decorations, is just the thing.

This is how you design the signpost:

Paint the **signpost sign** and some scatter decoration "Oakly" with the **VBS craft paints** as you wish. If you like, you can also paint over the hats of the VBS **Scattered parts** moose and Santa "Sven" with handicraft paint . For a nice 3D effect, you can stick sprinkles over the stars.

Print out the **template** and transfer the lettering to the corresponding signs using graphite paper. Copy them with the Posca **marker** after them. Then glue the scatter decoration moose and Santa to the signpost using handicraft glue .
