Creative bag advent calendar

Instructions No. 2926

Difficulty: Beginner

Working time: 4 Hours

Still looking for inspiration for your next advent calendar? Then we have just the thing. This bag advent calendar is very easy to make and will make everyone very happy.

First you stick a sticker on all VBS Wooden "button" clips with a sticker with the numbers from 1 to 24 so you can see which bag can be opened on which day.

Then design the individual kraft paper bags. You can use the VBS Craft kit "Natural Harmony", the satin ribbon "Uni", the glitter stickers "Stars", the washi tapes "XMAS Berries" and the VBS scatter decoration-Use the "Rocking horses" set. You can decide individually what you use and in which combination. You can see which combinations we decided on in the instruction picture.

Once all 24 bags have been decorated and embellished, they can be filled with small gifts and treats.

Finally, the kraft paper bags are closed with the matching wooden clips. The bag-advent calendar is ready and the waiting time can be shortened.
