

# Dekorative Flaschenpost

Instructions No. 353

I wonder what is written on the **scrolls in the bottle post**? The instructions and decoration idea is a great nautical decoration, which can also be used for real personal messages. The message in a bottle can be made quickly and with little effort.

**And this is how** you do it

Tear it Vellum paper along the edges and colour them with the brown one, Ink Pads then roll up the sheet and tie around it

Now fill something Sand or pearl gravel and some shells into the bottles and put the paper roll inside.

Wipe Ink Pads lightly over the corks and the tassels with these two and close the bottles

Then you can decorate them with the tassels and pendants made of natural bast

The plates Craft cardboard sheet are also colour matched with stamping ink. Additionally you can decorate the bottles with braided ribbons, Jute yarn which you wrap around them and knot them
