Easter table decoration birdhouse

Instructions No. 2478

Arrange a great table decoration in your home during the Easter season! The little birds in this idea are cast with Keraflott relief casting slip itself. With a few other accessories creates a pretty eye-catcher.

Casting of the bird statues

The little birds (each approx. length 5.5 cm x height 7 cm) are a classic example of mold casting. You use a latex casting mold for this. First, make a mold holder out of a sturdy cardboard box by cutting a round cutout into it and hanging the casting mold in it.

You will need about 3 tablespoons of Keraflott relief casting compound per bird. Mix the powder with water in a container to form a creamy paste (about 3 parts powder to one part water). Refer to the package instructions. Add color concentrate and stir everything well. Then pour the mass into the latex casting mold. After about 30 minutes, the casting can be removed from the mold for further air drying.

What amount of color concentrate should be added?
25 drops of sunny yellow with 5 drops of red (for the color orange) or 15 drops of berry results in a small bird in a stronger color.

For the birds in pastel of this idea, 5 drops of purple, 5 drops of petrol or 5 drops of sun yellow were used.

Paint the white cardboard frame with antique white paint.

Arrange the table decoration

Once everything is dry, arrange cardboard frame and birds together with a bird's nest, with moss, willow catkins and small decorative eggs to an Easter decoration. The willow catkins can be fixed to the frame with a little hot glue.
