Hygge Licht-Design

Instructions No. 1658

Difficulty: Beginner

Working time: 10 Minutes

Turbo craft idea for a cosy hygge light wanted? Then this Wind light is exactly the right one for you!

Little effort - great effect

The grooved lantern glass should be free of grease and dust, so that the applied colour will stay on the glass for a long time.

Use glass & porcelain paint, this also adheres to smooth glass surfaces. Simply dab Chalky paint in blue with a sponge brush on the wide surfaces.

Put the candle into the Wind light - done!
