Instructions for sewing cheerful cuddly monsters

Instructions No. 1240

With this instruction even untrained people can **sew** cheeky little good mood monsters.

And it's that easy:

Cutting fabric parts to size

First download the motif template and select a monster model. Cut all parts for this model. Place the fabric with the two right sides on top of each other and pin them with Needles . The pattern piece is placed on the fabric and the outline is transferred with a trick marker. The Pins should be stuck in the fabric in such a way that the fabric layers cannot shift while sewing. When cutting out the fabric, allow for an approx. 8 mm wide space for the seam allowance (this corresponds approximately to the width of the sewing machine foot. If your pattern pieces already have a seam allowance, cut out these pieces on the line

Preparation / Sewing

If a part of the body, for example the face or belly, is to be appliquéd with a different fabric, sew these appliqués onto the corresponding cut parts before sewing them together. This is particularly successful with iron-on fleece

First sew all cut pieces such as arms, **legs, ears or** wings **first on the** right side with a straight stitch. Make sure that the turning openings marked on the pattern pieces are not sewn shut. In the next step, the seam allowance should be notched in the area of all curves at a distance of approx. 1 cm with a scissors notch, so that the fabric lies better after turning and does not compress. After sewing, **turn** the pieces through the remaining opening and stuff **them** with cotton wool.

Place the arms, ears or even wings on the right side of the fabric of the **body part** in the appropriate places, so that the desired monster figure looks harmonious. Now the counterpart of the body part is put on, right side down, and fixed with Needles . Do not make a turning opening in the lower part of the body. Now topstitch the body with a straight stitch and then snap in all the curves of the body with scissors at a distance of approx. 1 cm, turning the body through the turning opening

Choose **eye / face applications,** place them on the body and iron them on according to instructions. Alternatively you can fix them on your cuddly monster with Textile glue

Finally, stuff the body with filling cotton wool, place the upper ends of the stuffed legs **in the** turning opening, tack them on with Pins and sew them on in one go
