

Lustige Weihnachtseulen

Instructions No. 1023

These owls make the winter heart beat faster!

Beautifully decorated with colours and illuminated by a chain of lights, these owls will decorate your house. Put them in the window and welcome your guests from afar or give them a place in the children's room, you will see how little children's eyes will start to shine.

And it's that easy:

Prime the owl figure completely in white and let it dry.

Glue the lower part, the stand, with the upper, printed Napkins-layer.

After drying, simply cut off the excess with a scalpel.

Use the special Napkins-brush, it minimizes the risk of wrinkles and cracks in the motif.

Now paint the owls in colour, above the white the colours shine more intensely. By lightly wiping in from the Beige

at Grey, the winter owls get more liveliness.

When all colours are dry, thread the lights of the fairy lights into the recesses and fix them with some hot glue in the drill hole.

Glue the Wobbly eyes on the owls and pull with the permanent-Marker the contours. Now put the owls on the stand.

Article information:

Article number	Article name	Qty
