

Maritime house front

Instructions No. 1571

Difficulty: Advanced 🍴🍴🍴🍴

Working time: 50 Minutes

With this timelessly beautiful house front, an MDF handicraft blank with classic decoupage technique becomes a stylish decorative object - ideal for all landlubbers and sea bears.

The handicraft blank house front "Seashore" consists of 5 individual parts to put together. All parts are first primed with white Handicraft paint. The edges and also the rear fronts of the house surfaces are also taken into account when painting.

The Motif straw silk is now glued onto the dried paint with decoupage glue (house fronts). The printed Straw silk paper has the advantage over a Napkin that no superfluous layers of paper have to be removed for the decoupage technique, the Straw silk paper is also somewhat more robust in its processing.

Design house fronts

First roughly cut Straw silk paper only and make sure that the entire surface is covered with Decoupage adhesive. Now carefully lay on the Straw silk paper . As soon as the Paper has dried, cut off the Straw silk paper that protrudes at the edges with a scalpel.

The roof edges of the houses and the front of the houses with the sailboat are covered with Jute ribbon

Paint the base plate

Apply Chalky Color in the colour Vanilla. to the edges of the base plate Nougat wiped - this creates a great optical accent.

Finishing the anchor

The MDF anchor is painted with white and grey Handicraft paint It is then wrapped with Jute ribbon . A piece of Jute ribbon is also pulled through the anchor - it looks like a sail rope.

Finish

While all parts are drying, two glass tubes can be filled with Decorative sand and one rolled up with a paper roll bound together with Ribbon - the small tubes are simply closed with a cork. They have become a cute and very decorative **message in a bottle** .

All parts are now plugged together. Paint the base plate with Decoupage glue and insert fine white **Decorative sand** scatter. Finally, arrange the two glass tubes, shells and other maritime accessories on the decorative object.
