

# Metal ring with macramé

Instructions No. 1942

Difficulty: Beginner 🍃🍃🍃🍃

Working time: 1 hour

Decorations with metal rings are currently in great demand. The simple rings are often combined with other decorative objects and when hung up they create a cosy and homely atmosphere. In this tutorial we have combined the stylish metal rings with Macramé and placed a terracotta pot with succulents in the middle.

This is how you can create a beautiful hanging decoration

First of all, the two **metal rings** are treated **with** edding **Permanent Spray** in the colour **Imperial Gold** dyed. The paint dries silk-matt. Of course you can also choose another colour or leave the metal rings in white

Cut **6 pieces** of the **natural Yarn** colored one in **120 cm** and one piece in **160 cm**, **mustard yellow** one from **piece in Yarn 120 cm**. Now take all the threads, put them together in the middle and knot the whole skein around the two metal rings

Now take the **free knotting template** and start knotting according to the instructions. First **start** with the **two longer, natural-coloured threads**, after a few centimetres a **Wooden ball** strung. Continue with the

**mustard yellow thread.** Then a **ball** is threaded again and knotted with the natural-coloured one. After the last knot, leave about 5-10 cm of space and then make another simple knot to create a suspension.

Paint the **terracotta pot** with **Handicraft paint in Stone Grey**. Let the paint dry completely. Fix the **wooden ring** between the **metal rings** with hot glue and then **wrap Yarn** the glued areas with the natural coloured one. Fix the **succulents** in the terracotta pot with some hot glue **and** finally place it in the wooden ring

The stylish hanging decoration is ready.
