Napkin Stand with Wire Decoration

Instructions No. 826

Make an **extraordinary napkin stand** individually with wire decoration. Soft aluminium wire forms the framework for the creative decoration of the napkin stand. The forms you bend simply on the basis a sketch.

And this is how it works

Prime the napkin stand and the hemispheres white.

After drying, glue the selected fabrics to the Handicraft glue front and back of the napkin holder. Cut back the excess fabric.

Bend the aluminium wire using the templates, but bend the tight windings at the beginning and ends with round nose pliers and the rest by hand. Bring the wire ends together and twist or, in the case of the blades, connect them with small hooks

Wrap all parts at the places marked in the templates first with adhesive tape and then with 1 mm thick wire

Spread leaves, flowers and wings thinly on the back, stick the Handicraft glue fabric on. After drying, cut out cleanly with small scissors.

Fix a long stem made of the 2 mm thick aluminium wire to the flower with hot glue. Wire the finished flower and bird firmly to the stem.

Bend a long "U" from 3 mm thick aluminium wire, wrap both ends around the centre of the trunk.

Glue the finished element with effect glue into the napkin holder.

Important: Effekt Glue must be applied thickly with one Spatula and dried overnight.
Glue the hemispheres on the flowers, fix a single flower on the napkin holder

---

Dear sewer, as fabrics are seasonal goods and we always want to have trendy fabrics in stock for you, it can happen that the sewn fabric is no longer in our range.

In our fabric section you will find a large selection of great fabrics. Click **here** to discover **all the fabrics**.

Must Have

VBS Napkin holder

Length: 15 cm
Depth: 7 cm
