Paper stars in pastel

Instructions No. 2892

Difficulty: Beginner

Working time: 45 Minutes

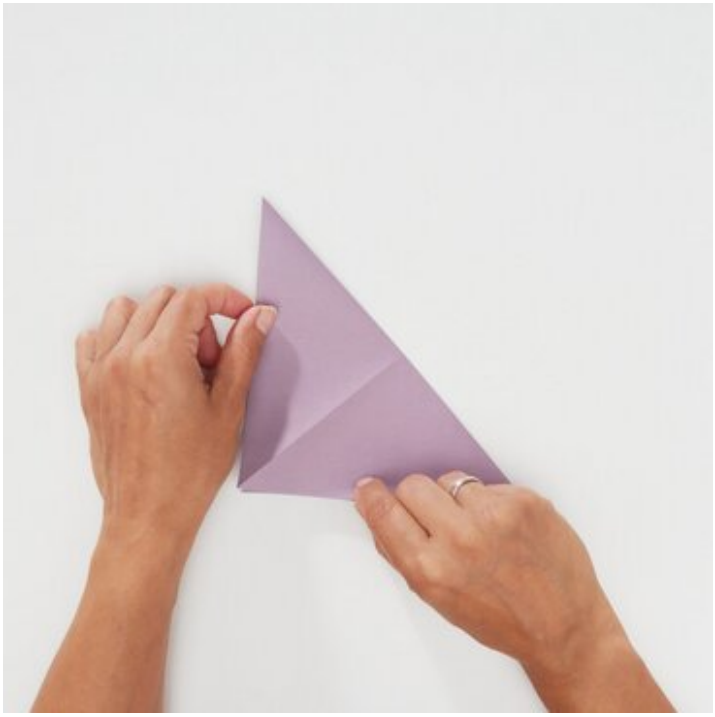

What would Christmas decorations be without paper stars - this idea features pretty stars made from pastel folding paper that you can easily recreate with the help of our detailed step-by-step instructions.

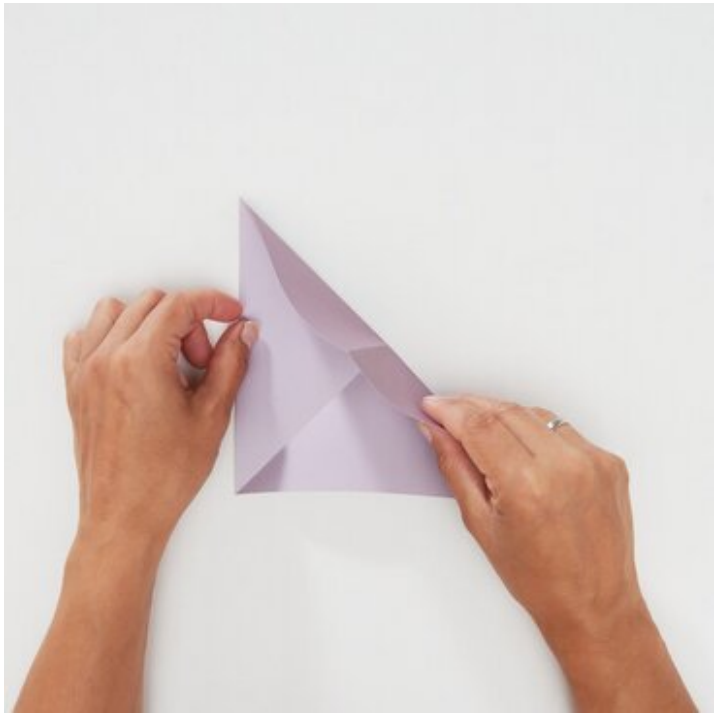

You will need two 15 x 15 cm folded sheets for each paper star. With our step-by-step photos, you are sure to succeed quickly and easily.

Fold crosswise

Fold the sheet crosswise once each time so that a folded seam is created diagonally on the Paper .

2

3

Cut in half and fold

You will need more folds for the crafting: Fold the sheet once in the middle.

4

5

6

Paper cut in

Now cut the center folds in half on all 4 sides.

Fold star tips

Place the Paper in front of you so that the diagonal fold is facing downwards. Fold the paper from the cut center to the diagonal fold. You will get a pointed star with 4 points.
If you now glue the two edges of a star tip together with double-sided adhesive tape , the star tip will emerge plastically at the folded seam with a 3D look.

Fold a star with 4 points from the second folded sheet in the same way.

Completion of the paper star

Finally, glue the two craft pieces together to form an 8-rayed star.

You can embellish the star further by wiping over the edges with a golden ink pads .

Use a sewing needle to pull a Perlon thread through one of the tips of the star. The star can now be hung up individually or in a decorative group.
