Picture frame with miniature scene

Instructions No. 3594

Difficulty: Beginner

Working time: 6 Hours

This idea is a good example of how you can creatively and uniquely design a picture frame to create a miniature work of art that will personalize your living space.

Painting picture frames and decorative elements

In this idea, a picture frame forms the basis for a self-designed miniature "house wall" scene. Start by painting the picture frame, the wall shelf, the handles of the wooden garden tools and the door with handicraft paint . You can choose vibrant colors for a lively result or soft tones for a more subtle ambience. Allow all objects to dry completely.

Building the house facade

The house façade for the miniature scene is made from motif photo cardboard . Now cut out a suitable piece from motif cardboard that fits exactly into your picture frame. If you have a picture frame measuring 37 cm × 37 cm, the piece of cardboard should be 30 cm × 30 cm. Place this Paper in the frame.

Design miniature flower pots

Mix mineral sand with handicraft glue, until the mixture has the consistency of soil. Pour this mixture into miniature terracotta pots. Then place your chosen artificial flowers in this 'earth bed'. If you like, you can also pour the mixture into a small decorative bucket and create your flower arrangements there
Flower arrangements there.

Set up the miniature scene

First, attach the wall shelf and the door directly to the picture frame using hot glue. Next, place all the other decorative elements and glue them in place too.

Decorate your artwork with a touch of nature, by sticking some Iceland moss in a corner of the frame with hot glue. Finally, place small gypsophila flowers on the moss. Your picture frame with miniature scene is finished.
