Design papers are available in many great colours and designs. They are super versatile and very easy to make. Combined with pearls and gemstones they become a real eye-catcher at the window.

## It's that simple:

For each basic form from the motif template on the PDF instructions a **Stencil make** them from sturdy cardboard, transfer each motif 6 times onto the sheets from the paper set and cut them out

Place the identical **motifs** on top of each other and pierce small holes Prickle-Needle in the middle at 5 mm intervals, then sew the motifs firmly together. Thread beads on both ends and attach organza ribbons on top. Fan out the motifs.

Now punch out **flowers** in different sizes and stick them on top-Ribbon of each other with tape. In the middle, make a small cut to attach a decorative stone, bend it open on the back. Cut out small motifs from the design papers and decorate with gemstones according to your taste. The motifs can also be cut out with contour scissors. Stick on the different flowers with tape-Ribbon and 3D-Glue pads .

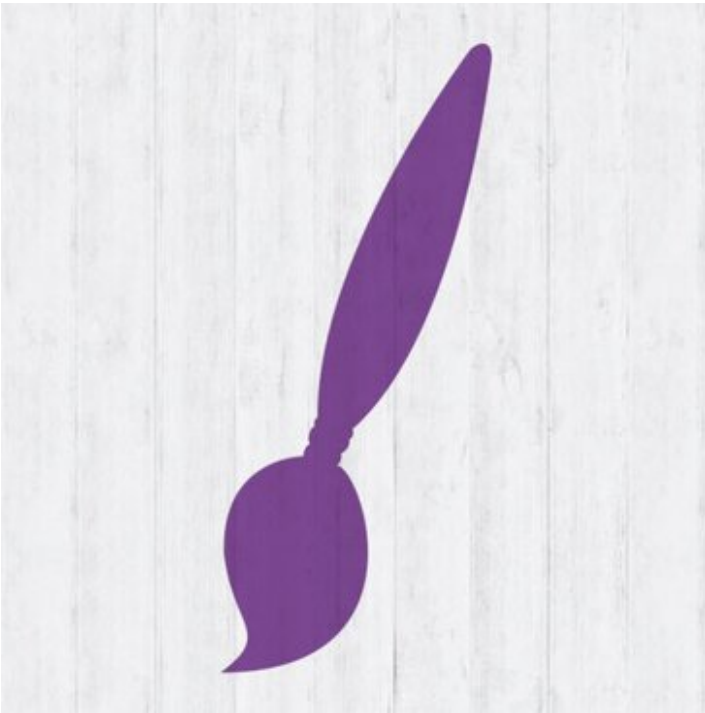

Cut out two identical motifs from the paper set and glue them together on the lower bead string. Pierce small holes in the edges of the flower, thread beads between the petals with sewing thread.

Finally, shape the finished motifs and **decorate** them with matching ribbon bows.
