Teelichtschale maritim

Instructions No. 1629

Difficulty: Advanced

Working time: 1 hour

Bring home the **holiday spirit** . With our bowl with tea light glasses you have a great **light source and decoration** at the same time.

It's as simple as that:

It's that simple:

First**prime** the wooden shell and embossing foil with **white Acrylic paint**

Remove the unprinted layers of the Napkin. After the shell has dried, stick the printed layer of the Napkin into the inner surface of the shell. To do this, coat the surface with **Napkin varnish**put the Napkin on the wet surface and then paint over it again with Napkin varnish.

For the vintage look on the sides of the bowl, take a little blue Acrylic paint and wipe it gently over the side panels. This is best done with a **Paint sponge**

You **stick** further napkin motives on the white stamping foil. Here, too, the same procedure as described above is used to stick on the motifs with Napkin varnish . Cut them out after drying and stick them to the bowl for decoration with hot glue.

The tea light glasses and the bowl can now be decorated as desired. In our example we have **Jute ribbon** around the bowl and the tea light glasses

Tip: With double-sided Adhesive tape the Ribbonholds in the desired place and it is easier to attach.

Further decoration possibilities are Embellishment, shells and other maritime eye-catchers.

The glasses still with **Decorative sand** fill, **Tea lights** into it - and ready is a great maritime **eye-catcher.**

Must Have

Tray bowl, wood

Length: 45 cm
Width: 13.2 cm
Height: 2.3 cm
Material: Wood, Raw wood
