Winter glass baubles

Instructions No. 2878

Difficulty: Beginner

Working time: 3 Hours

Create these wintry glass baubles with miniature snowmen and fir trees with little effort. They are ideal as Christmas tree decorations or as window decorations. The decoration can also be used to create a beautiful table arrangement.

First decorate the **open glass baubles** with **decorative snow**, small **miniature snowmen** and **fir trees**. To be able to hang the baubles up later, attach a **satin ribbon** to each ball.

Decorate the **underside of the glass plate** with the **napkin technique**. **Important:** The surface must be dry, clean

and free of dust and grease. Remove the top printed layer of the napkin , place it on the plate and coat everything with the **napkin varnish** especially for glass and porcelain. The paint must then be baked at **160 degrees for approx. 30 minutes**, after which the object can be wiped clean.

Fill the other **glass balls** with **organic snow** and decorate them as desired with **twigs**, **berries** and **satin ribbon**. Glue the balls onto a **wooden ring** for a secure hold.

Arrange the **glass balls** you have just filled together with other **miniature snowmen** on the **glass plate**.
