Winter miniature landscape

Instructions No. 2308

Difficulty: Beginner

Working time: 1 hour

Bring the beautiful **winter atmosphere** into your home. The cute **snowy landscape** is easy to make and looks great on your table, dresser or windowsill. The tea light and the fairy lights create a beautiful atmosphere.

This is how the beautiful snowy landscape is created:

Wrap the **light chain** around the **metal ring** and stick it onto the tree disc.

Fill the **glass balls** as you like. We filled them with **diamond snow**. Hang the balls on the metal ring with a perlon thread. **Important:** Do not hang the balls in the middle, as they must not come into contact with the flame of the tea light.

Decorate the **tree slice** with decorative snow and place the **figures** and **fir trees** on it. These stick directly to the plate thanks to the snow, so they don't need to be glued. Paint the sleigh with a red pencil and place it on the tree

slice as well.

Finally, place the tea light with **tea light glass** in the tea light holder.
